Hun Sen Bueng Phreas high school 2022-2024

Experience

School Project

Passerelles Numériques Cambodia

- VCI (Visual Company Project) Feb 15 – Apr 02, 2026
Developed the Chomnuoy System for supporting donations to education, elderly people, and children. Used technologies including React.js, Laravel, Redis, and MySQL. Collaborated in a team of 5 members. Worked as a Developer and QA Tester, ensuring system quality and performance.
- Web Design Project Sep 02 – Oct 09, 2025
Designed and developed a restaurant website using HTML, CSS, and SASS. Worked independently to build a responsive and user-friendly interface. Utilized tools such as VS Code, GitHub, and Figma.
- Algorithm Project Oct 30 – Nov 04, 2025
Built a Student Result Management System using Python, HTML, CSS, and MySQL. Worked independently to implement system logic and data handling.
- JavaScript Project Dec 22, 2025 – Jan 04, 2026
Developed an e-commerce website for selling watches using JavaScript, HTML, and CSS. Collaborated in a team of 3 members. Led the project as a Project Manager and contributed as a Developer.
- Software Deployment Project Dec 15 – Dec 22, 2025
Deployed a WordPress website using Apache and MySQL on an Ubuntu server. Managed deployment through command-line tools.

Additional experiences

- Agile Concept Workshop
Delivered by Rady Y (PNC IT Trainer). Learned Scrum methodology, sprint planning, and team collaboration.
- UX/UI Design wrkshop
Delivered by Poeurn Sokuntea (Web Developer). Participated in user research, wireframing, and interface design activities.
- Dev SecOps workshop
Presented by : Senior 2024 (Dev SecOps, ABA Bank). Participated integrating security practices into the software development lifecycle .
